(a) absolute dissipation
integrated dissipation ϵ
grid resolution N
uniform lid (sharp)
uniform lid (regularized)
$k = 1$ ($\sin \pi x$)
$k = 2$ ($\sin 2\pi x$)
B_1 PINN mean
(b) normalized to the sharp lid
$\epsilon / \epsilon^{\text{sharp}}_{\text{uniform}}$
(c) normalized to the regularized lid
$\epsilon / \epsilon^{\text{reg}}_{\text{uniform}}$
